SUMMARY

Full Stack Developer with 1 year of professional experience building and deploying web and mobile applications using Python, FastAPI, TypeScript, JavaScript, React, React Native, Node.js, and Express.js. Experienced in developing RESTful APIs, database-driven systems, automated tests, and production applications using Docker and AWS. Hands-on experience with CI/CD, performance optimization, and integrating Generative AI and LLM capabilities into application workflows.

TECHNICAL SKILLS

- Languages: Python, TypeScript, JavaScript
- Frontend: React, React Native, Expo
- Backend: FastAPI, Node.js, Express.js, RESTful APIs
- Databases: MySQL, PostgreSQL, Microsoft SQL Server (MSSQL), MongoDB
- Testing: Vitest, Playwright, Unit Testing, End-to-End Testing
- Cloud & DevOps: AWS, EC2, S3, Docker, GitHub Actions, CI/CD
- Development Tools: Git, GitHub
- AI Development: Generative AI Integration, LLM Integration, AI-Powered Application Features

WORK EXPERIENCE

AMA Educational System Holdings Inc. 09/2025 – Present
Full Stack Developer

- Develop and maintain a production Learning Management System and mobile application serving thousands of users using Python, FastAPI, TypeScript, JavaScript, React Native, MySQL, and AWS.
- Design, build, and optimize RESTful APIs supporting authentication, assessments, notifications, database operations, and other core application workflows.
- Develop mobile application features using React Native, Expo, and TypeScript while integrating frontend applications with FastAPI backend services.
- Write and maintain unit and end-to-end automated tests using Vitest and Playwright to prevent regressions and improve application reliability.
- Build and maintain GitHub Actions CI/CD pipelines, Dockerized deployment environments, and AWS EC2 infrastructure for production deployments.
- Optimize API and database performance, improving response times by approximately 40% under high-concurrency workloads.
- Implement AWS S3-based storage and application workflows to reduce database storage requirements and improve system scalability.
- Integrate Generative AI and LLM-powered capabilities into application workflows to support AI-assisted application features.

Monheim Distributors Inc.
Full Stack Developer

02/2025 – 04/2025

- Developed an internal full-stack sales and e-commerce platform using React, Node.js, Express.js, and Microsoft SQL Server.
- Built reusable React components supporting product browsing, inventory management, ordering, and administrative workflows.
- Designed and developed RESTful APIs using Node.js and Express.js with authentication and secure application workflows.
- Designed and optimized relational database structures supporting inventory, orders, products, and internal business operations.
- Used Git-based development workflows while participating in testing, debugging, application integration, and deployment.
-

EDUCATION

Bachelor of Science in Computer Engineering
Makati Science Technological Institute of the Philippines

- Graduated with Latin Honors, Cum Laude

10/2021 – 07/2025

LANGUAGE

- English - Fluent
- Filipino/Tagalog - Native
